

BLOCKCHAIN CLUB FUTMINNA

ABDULWAHAB SALISU MOHAMMED.
TEAM LEAD

PROBLEM STATEMENT

BLOCKCHAIN CLUBS AND COMMUNITIES

- Many students are interested in blockchain and Web3 but don't know where to start.
- Access to opportunities, mentorship, and practical experience is often limited.
- Students interested in different blockchain ecosystems rarely have a common platform to collaborate.

Our club's goals

OUR VISION

To build an inclusive environment where every student interested in blockchain and Web3 can learn, connect, collaborate, and unlock opportunities regardless of their experience level or preferred blockchain ecosystem.

OUR MISSION

To empower students through education, hands-on experience, community engagement, and industry exposure, creating a pathway from curiosity to competence and from competence to opportunity within the Web3 ecosystem.

Where
you
come in

COMMUNITY MEMBERS!!

A developer who wants to build decentralized applications

A designer interested in creating better user experiences

A marketer, content creator, or community builder

A researcher curious about blockchain technology

An entrepreneur looking to launch innovative solutions

Or simply someone eager to learn about Web3

FUTURE PLANS

- Regular workshops and technical bootcamps
- Industry partnerships and guest sessions
- Hackathons and innovation challenges
- Startup incubation and project support
- A thriving blockchain and Web3 ecosystem at FUTMINNA

Warm **welcome** from the team
